

SAVE OVER £50 !!

Midsummer Veterinary Group
PUPPY HEALTHCARE PACKAGE

We have designed this package in order to give your puppy the best possible start in life. The cost of the package is £99.99 which is payable on your first visit to the surgery.

- **Full course of vaccinations** consisting of two injections which give protection against Canine Distemper, Hepatitis, Parvovirus, Parainfluenza Virus and Leptospirosis.
- **Health check** to ensure your puppy is in the best of health and OK to vaccinate
- **A Microchip** which gives your puppy unique identification number logged on a national database, which should your puppy go missing would assist in reuniting you with your pet. For an extra £6 we can make this a Biotherm chip which will detect and transmit your puppy's temperature. **Please arrange an appointment with a nurse for this to be done.**
- **First worming treatment** essential for the good health of your puppy and to rule out any risk to your children.
- **First flea treatment** to prevent the discomfort these parasites cause.
- **Your first bag of Royal Canin puppy food.** This is a premium range dog food which we highly recommend and is available to cover all stages of your pet's life.

4 weeks FREE insurance cover available, accidents do happen!!

Please note the insurance policy is only activated on completion of the cover note with a member of staff who will sign it.

When the time comes for neutering present this voucher and we will give you 10% off the cost of the operation.
